

# Speech Science, Language Technology and Innovative Applications

## Progress Report of Course Project [Suggested template and content]

Project title:

Names of group members:

Objectives:

- to study/investigate the problem of ...
- to design a method of ...
- to develop/implement a ... algorithm/system

Motivations:

- why the problem is important
- how the system is useful
- how the research may enhance our understanding/knowledge

Problem/System Description

- define the key problems to be solved
- describe the system functions (if the project aims at a demonstrable system)

Approach/Methodology

- describe the overall approach
- state the methods to be used

Progress of Work

- progress up to this report submission
- problems encountered

Working schedule
